

PLANTRONICS

DA SERIES

PROFESSIONAL CORDED USB AUDIO PROCESSORS

Harness the Power of Unified Communications with a DA Series USB Audio Processor.

Cost savings, portability, a range of new providers and call features has made PC telephony the ideal tool for phone-intensive organizations. Plantronics delivers a six-model series of USB audio processors to help contact centers and other businesses derive maximum value from their VoIP investments. Paired with a Plantronics professional headset, our processors infuse digital-signal clarity into every VoIP softphone communication. A variety of features and pricing options ensure the right fit for all professional environments.

- **Enhance customer interactions.** High-quality audio translates to smoother, more concise customer communications and improved satisfaction.
- **Experience wideband audio.** The DA45™ USB audio processor and DA40™ USB adapter offer wideband compatibility for crisp audio sound and lower listener fatigue.
- **Leverage existing investments.** Migrating to a VoIP infrastructure? The DA series of processors are compatible with your current Plantronics headsets.
- **Choose from a range of solutions.** Entry-level, mid-range and premium solutions fit into contact centers and enterprises worldwide.

PLANTRONICS DA SERIES

PROFESSIONAL ^{CORDED} _{USB} AUDIO PROCESSORS

DA60™ and DA55™ USB Audio Processors

Clearline™ Audio for Superior Voice Communications

Ideal for VoIP-based contact centers and offices using softphones, the DA60 features robust digital technology and PerSono Pro™ 2.0 software for unparalleled command over voice and audio quality. The DA55 audio processor delivers digital audio excellence to contact centers, other VoIP-based organizations and to remote employees using softphones.

- Clearline™ audio reduces the level of loud noise on incoming calls to a comfortable level.
- Advanced echo cancellation ensures clear, natural conversations.
- Quick Disconnect™ (QD) capability allows the headset to detach without losing the call.

PerSono Pro™ Software (DA60 only)

- Equalizes headset settings for optimal audio performance.
- Tracks agent noise exposure to ensure compliance with workplace safety standards.
- Secures customer information when agents leave their workstation.
- Displays transmit and receive volume to verify customer experience.

DA45™ USB Audio Processor and DA40™ USB Adapter

Wideband Audio

The DA45 audio processor and DA40 adapter work with all Plantronics H-series headsets—including the latest wideband models—to deliver outstanding audio quality, reliability and a choice of wearing styles. The DA45 delivers superior sound with one touch controls, while the DA40 is the most economical enterprise-class solution available.

- Wideband audio support provides clear, natural speech and lower listener fatigue.
- Echo management ensures natural conversation even with VoIP latency. (DA45 only)
- Inline control offers volume, mute (with LED indicator), and easy call answer/end features. (DA45 only)
- Quick Disconnect™ (QD) capability allows the headset to detach without losing the call.

SupraPlus® USB and Stereo SupraPlus® USB

Unified Communications and Stereo Hi-Fi Multimedia

Featuring noise and echo suppression and unrivaled stereo sound, the SupraPlus USB and Stereo SupraPlus USB deliver superior clarity to office and contact center conversations and hi-fi multimedia listening (Stereo SupraPlus USB only). Both solutions enable softphone users to conduct crisp, natural communications—even in noisy VoIP contact centers.

- Echo management and noise-canceling microphone deliver high-performance audio.
- Inline control offers volume, mute (with LED indicator), and easy call answer/end features.
