DOCKING STATIONS AND VEHICLE MOUNTS

## Panasonic Toughbook 30 MAG™ Docking Station

Antenna Pass-Through	Locking Type	Weight	Height	Width	Depth
NA	<b>Optional</b> - keyed alike. Push button key lock to release docking connector	5.8 lbs	3.85"	12.40"	13.43"

### Features

- Patent Pending, Magnesium Alloy body design allows for improved docking station design and mounting system/computer performance.
- Sleek, lightweight, yet very rugged for long-term durability
- *Toughbook Tested* by Panasonic for compatibility and functionality; warranted to Toughbook standards
- Designed using MIL-STD-810F test procedures and complies with FCC Class A standards
- Design works with Toughbook 30 computers
- Internal/protected circuit board protects against dirt and dust
- Simple, one-handed docking mechanism:
  - Pull front handle forward to dock
  - Push key lock button to release and undock computer
- Brass locating pins for precise computer placement
- Floating docking connector for reliable docking connection
- Interlocking mechanism protects against connector damage & prevents engagement until properly mounted
- Forward facing ports for low mounting capability, minimal cable strain and minimal swivel resistance
- Key lock options:
  - Push button lockable latch is an optional use and keyed alike (lock use is not necessary for continued, positive docking engagement)
  - Automatic Lock is keyed alike (automatically locks when the computer is docked)
- USB 2.0 compliant
- Use *Lind Auto Adapter* (Item No. 11798)
- 3 year limited warranty (docking station body)
- Optional 4 and 5 year extended warranty available
- Can be used with most **Motion Attachments**
- Private label available for orders 250 units and higher, please contact a Gamber-Johnson representative for pricing information

**Note:** The Panasonic CF30 computer is **not recommended** to be "hot docked".

### Port Replicator

- |                       |                   |
|-----------------------|-------------------|
| - Serial (2)          | D-sub 9 pin       |
| - Ethernet            | RJ45              |
| - USB (4)             | 4 pin             |
| - External video      | D-sub 15 pin      |
| - Headphones/speakers | Stereo phono jack |
| - Microphone          | Mono phono jack   |

**Item No. 7160-0119**

**Note: This dock and all sub components are RoHS compliant.**

### Reasons Why To Use Magnesium

- Density** - Magnesium is 33% lighter than aluminum, which will reduce weight of the dock and increase fuel efficiencies
- Strength** - Highest strength-to-weight ratio of all structural metals, except for titanium
- Stiffness** - Specific stiffness is greater than all other common engineering material therefore, offers great ruggedness
- Surface Finish** - Magnesium has a better surface finish than plastic molded parts and a smoother surface
- EMI Shielding Properties** - Inherently conductive and shields out EMI
- Energy absorbing** - Magnesium dampens out vibration
- Efficient heat dissipation**
- Resists impacts and dents**
- Recyclable**
