

PDM-1-NC

The IMPACT™ PDM-1-NC is a behind the head double muff noise attenuation headset fitted with a background noise cancelling gooseneck boom microphone. Designed for extreme noise environments, the PDM-1-NC features an oversized in-line PTT with clothing clip and additional sealed PTT on one of the ear cups for convenient use. Built tough for demanding mission-critical environments yet cost effective for a multitude of applications and budgets.

Features

- Dynamic background noise cancelling mic
- Heavy duty adjustable gooseneck boom mic with replaceable foam wind cover
- Behind the head adjustable design compatible with most helmets
- Anchored Kevlar™ reinforced heavy duty coil cable
- Large in-line PTT with clothing clip easily operated while wearing gloves
- Additional sealed cup PTT
- Three Year Warranty

PDM-2

The New IMPACT™ PDM-2 is an over the head double muff noise attenuation headset designed for extreme noise environments. Stainless steel cup arms offer comfortable even pressure for extended wear.

A multi-adjustable boom microphone allows the headset to be worn with the mic positioned on either side of the head. A sealed PTT is situated on one of the ear cups.

Features

- Over the head comfortable head band design
- Stainless steel ear cup arms offer increased durability and even pressure for extended, comfortable use
- Solid steel style boom mic allows for forward/backward mic positioning
- 180 degree gooseneck mic tip for perfect positioning
- Sealed ear cup PTT
- Disconnect cable to easily change out for different radio models or easy field repair
- Three year warranty
