The VuQube Model VQ4000 Portable Marine Satellite TV Antenna is the most versatile and cost effective marine stabilized antenna available. The ultra portable design provides reliable satellite TV reception for your boat while offering the flexibility to take your favorite programs with you camping, tailgating or to a backyard barbeque – something you can't do with any other marine antenna. The VQ4000 features:

- Single coaxial cable connection
- One-touch operation
- Automatic satellite acquisition and switching
- Gyro stabilized tracking
- Portable design for added flexibility
