If you simply want reliable television reception while at dock or at-anchor, the Sea-King model 1200-KU is the right choice for you. Built-in DVB technology provides positive satellite identification and automatic satellite switching via your receivers remote control. The 1200-KU is designed to continuously track the satellite while in relatively calm water to offer tremendous value for cost conscious boat owners.

- GYRO STABILIZED SATELLITE TRACKING
- POSITIVE SATELLITE IDENTIFICATION
- AUTOMATIC SATELLITE SWITCHING
- DUAL LNB FOR MULTIPLE RECIEVERS
- SAME MOUNTING PATTERN AS SEA-KING 1500-HD ANTENNA
- \$2,295 M.S.R.P.
