CAROUSEL SERVER 310
WEB-ENABLED DIGITAL SIGNAGE

Carousel brings a new level of capability, price, and ease of use to the digital signage market. The Carousel Server is a complete package of both hardware and software that can provide up to fifteen separate channels of dynamic digital signage. Content can be uploaded, screens can be created, and Carousel can be programmed from any location with an internet connection.

WHY USE THE SERVER 310?

- **NEW!** Add up to fourteen additional channels**
- **NEW!** TV Input -- for displaying live video signals (up to 1080i) in a zone or full screen -- now included with every 310.
- **NEW!** NVIDIA® Quadro® FX 380 LP for professional graphics handling of transitions, crawls and video.
- **NEW!** Windows® 7 Professional.
- Built in Player. Includes one channel license.
- In an emergency, override the system with Alert Messages.

KEY FEATURES

- Multi-zone display for exciting, active content
- Interfaces with popular event management systems such as Dean Evans and Resource25*
- Comes with dozens of pre-defined templates
- Custom graphic design available through Tightrope Creative
- Can import PowerPoint slides and presentations
