carousel

CAROUSEL ENTERPRISE SOFTWARE WEB-ENABLED SIGNAGE SOLUTION

The Carousel Enterprise Server is an enterprise class turnkey solution for installations of hundreds to thousands of players and channels. Software only, Carousel Enterprise requires Windows® 2008 R2 Web Server Edition or higher, Microsoft® SQL Server or SQL Server Express 2005 and appropriate hardware at each channel location. It features the same ease of use and capability as Carousel Pro, but with greater economies of scale and affordability.

WHY USE CAROUSEL ENTERPRISE?

- The power and stability to handle very large networks.

- Built-in intelligence makes scheduling and administration easy.

- Communicate instantly with your audience through emergency messaging.

- Interface to event management systems means that when the information is changed in your event management database, it is automatically changed on Carousel's displays.

- Reduces communications costs by eliminating traditional production, distribution and installation of signs and schedules.

KEY FEATURES

- Web-based user interface using Safari, Firefox, Chrome or Internet Explorer
- Emergency messaging capability, with multiple levels of authorization
- Remote data adapter for XML input from third-party data systems*
- Interfaces with popular event management systems such as Dean Evans and Resource25*
- Plays Flash, multiple video formats, RSS feeds* and image files

* Optional plug-in and/or hardware required
